WITH ONE FELL BLOW

It Is Proposed to Crush the Power Of Spain

WHY ATTACKS ARE TO BE MADE IN MANY PLACES AT ONCE

Washington, June 10—Special—The policy of invading Cuba and Porto Rico simultaneously, which has been much criticised, is believed to be the wisest that could be devised. It is the purpose of the Americans to keep Spain busy in as many places as possible, and prevent the concentration of her strength at any one point. The American navy and army are so much superior that this can be done without jeopardizing our cause in the least. Military experts are now unanimous in praise of a plan that promises to bring Spain to her knees far sooner than she would surrender if her strongholds and colonies should be attacked one by one. To crush Spain with one fell blow—or a number of blows administered simultaneously—is the purpose of the administration.

No Danger of Attack.

Washington, June 10—Special—There is much criticism of the act of the Porto Rico expedition's commander in returning to Florida on account of the supposed presence of Spanish warships in the Caribbean. No such ships are in those waters and there is absolutely no danger to the invading army from such a source. Orders to proceed at once have been sent out to the commander of the flotilla, which will be conveyed by an adequate fleet.

Closing In On Santiago.

Cape Haytien, June 10—Special—Advices from Santiago report great activity, both on land and on board the American ships. It is evident that a combined land and naval attack upon the town is near at hand. The troops are closing in upon the hills, and are well supplied with field and siege guns. The best of feeling exists between the American and Cuban soldiers. A decisive engagement will doubtless occur tomorrow or Sunday.

The Invasion's Delay.

Washington, June 10—Special—The fact that the transport fleet is detained at Key West is the result of no new development in the war situation. It is said on the highest authority that it was decided before the expedition left that a stop was to be made at Key West to receive fuller instructions. The fleet is now lying off Key West. Sixteen warships will convoy the transports to Santiago. The warships, headed by the Indiana, are now assembling at Key West.

A Battle Expected.

Washington, June 10—Special—The reported capture of Santiago is discredited in official circles here. An engagement is not expected before tomorrow or Sunday and may be deferred a day longer. The fall of the city will doubtless be accomplished within a few days. Cervera's fleet is so badly crippled by recent disasters that it will fall an easy prey to the American squadron.

Havana Is Tranquil.

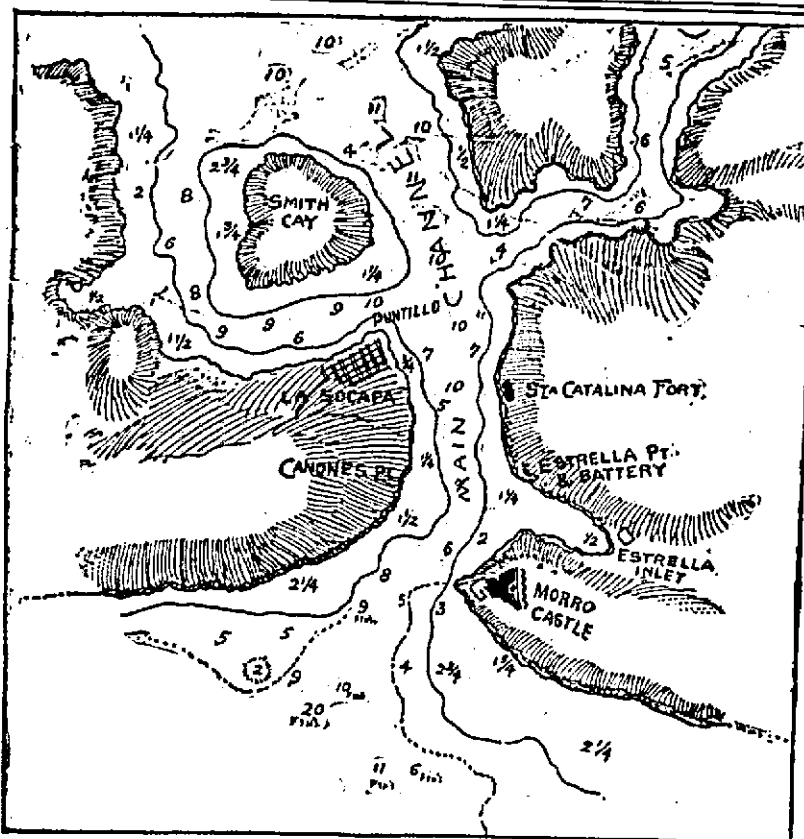

Madrid, June 10—Special—A telegram to the Imparcial from Havana says the Americans have not effected a landing upon the island. The population of Havana is pursuing its usual modes of life. The theatres and cafes are filled nightly. The Imparcial claims that the receipt of this message disproves the statement of Sampson that the cables are cut.

Guard Against Night Attacks.

Cape Haytien, June 10—Special—News from the American fleet says Sampson is taking extraordinary precautions to guard against night attack by torpedo boats. The eagerness of the ships to repel such attacks led the Texas to fire on the cruisers Marblehead and Vixen, mistaking them for the enemy's vessels.

A Skirmish in Cuba.

Norfolk, Va., June 10—Special—A private letter received here from one of the marines who was landed at Aquadores several days ago says that shortly after the landing they were attacked by Spaniards. In the skirmish that ensued two Americans and thirty-five Spaniards were killed.

HARBOR OF SANTIAGO DE CUBA.

The entrance to Santiago harbor is as narrow and sinuous as a woodland creek and is supposed to be mined. From the entrance to the head of the bay, where the city is situated, is about six miles, affording a spacious anchorage. The figures show the depth in fathoms.

YELLOW JACK APPEARS

Several Well Authenticated Cases of the Fever in Mississippi Town.

Washington, June 11—[Special]—Official notification has been made that there are now several well defined cases of yellow fever at McHenry, Miss. Every effort is being made to prevent the spread of the disease to the military camps in the south.

FAVORED BY NATURE'S GIFTS

Southern Rock County Compares Well with Other Sections.

A Gazette representative recently made a trip overland to Beloit, traversing the roads not usually taken by those on business bent, and from the Line City turned in a westerly direction along the state line. The growing crops present a very satisfactory appearance. Grass is well advanced, and corn a little late, but the young plants look healthy and give promise of a fair yield. There seems to be nothing to hinder the garnering of good crops of grain and hay sufficient to winter the stock.

On every hand there are indications that dairying is regarded as a sure and profitable business. The butter and cheese factory at Newark shows many evidences of prosperity, and farmers generally regard it a great aid to them. At Avon are to be seen many herds of finely bred cows that bring their owners a handsome profit. All along the scenery is as fine as mortal eyes have ever beheld, and everywhere are evidences of the thrift and enterprise of the farmers.

At Avon the correspondent met Mr. A. B. Carpenter, a man of large means who has done much towards the development of the village and the country round about. Although Mr. Carpenter is in business in Beloit he has a great affection for Avon, and has built a summer residence there where he and his daughter spend a part of every year. There is certainly no more attractive part of the state than the southern section of Rock county.

DECEIVED BY HER HUSBAND

Janeville Woman Induced to Mortgage Her Property by Misrepresentation.

James Hall, of this city, has been in Rockford this week looking after the interests of his cousin, Mrs. S. F. Weyburn, who seems to be in trouble over an act committed by her husband which led her to place a mortgage on her home, which in reality she thought was merely changing a mortgage on adjoining property. The Weyburns are among the most respected residents of the Forest City. The Rockford Star says:

"Mr. Weyburn, it is said, induced his wife to sign a mortgage on their home on North Church street. Mrs. Weyburn signed it unsuspectingly. When a note was brought to her to sign she made the startling discovery that she had been deceived by her husband into signing a mortgage on her own home. She faced the truth bravely and instantly notified her husband that their paths henceforth must be apart."

MADRID IS IN A PANIC

News of Disasters Excites the Populace to Fury

RIOTING COMMON AND QUEEN REGENT THREATENED

Madrid, June 10—Special—The populace is in a state of terror over the discovery that the government and newspapers have been lying about the condition of affairs in the Philippines and Cuba. During yesterday's Corpus Christi parade the spectators became panic stricken twice for no other apparent reason save the extreme nervousness or suspicion that something awful threatens them. Sagasta's warning to prepare for bad news has had a most terrifying result.

Madrid, June 10—Special—The cabinet has been in consultation with the queen all morning. They are greatly alarmed over the imminence of a popular outbreak. It was rumored that the queen had fled, but Sagasta says she is in the palace but not well.

Fighting Bob's Nightshirt.

Kingston, Jamaica, June 10—Special—The officers and crews of the American fleet are laughing at a very amusing mistake made by the Spaniards last Monday. They saw something white flying from the battleship Iowa, and believing that the vessel wished to surrender a Spanish officer came out in a launch and was politely informed that the Iowa was not flying a white flag. The object that caused the mistake was Fighting Bob Evans' night shirt.

Santiago a Base.

Washington, June 10—Special—The beginning of the Cuban campaign at Santiago was prompted by the fact that the city and vicinity form a splendid base for military operations. The region is wholly exempt from yellow and malaria fevers, and communication with other parts of the island, although difficult, is as easy as from any other point. No better place could be chosen from which to direct the movement of troops.

Torpedo Explosion.

A torpedo in the St. Johns river exploded this morning killing three men and badly wounding Lieut. Hart, of the United States engineers' corps. The men were at work wiring the torpedoes placed in the river.

Another Bombardment.

Havana, June 10—Special—The American fleet bombarded Santiago again today, the engagement lasting from eight to eleven o'clock. No details.

Keeps a Stiff Upper Lip.

Madrid, June 10—Special—Sagasta declared last evening that the government had no intention of suing for peace.

WEDDED AT GREEN BAY

John Quatsoe, of Janesville, United to Emma Dobry

John Quatsoe, who lately moved to Janesville from Green Bay, was married at his former home to Miss Emma Dobry on last Monday afternoon. The bride is held in the highest esteem and the same may be said of the groom. Mr. and Mrs. Quatsoe took a wedding trip to Chicago and Milwaukee and are now in Janesville, where they will be given a hearty welcome.

The groom is at present holding a position in his brother's shoe store at the corner of Milwaukee and Bivis streets.

Gomez Eager for Fighting.

Key West, Fla., June 10—A torpedo-boat destroyer made a safe landing on the north coast of Cuba on Monday, placing ashore John F. Jova, who carries dispatches to Gen. Gomez. Not a Spaniard was seen, and there was no need of shelling the place. Gomez is in good fighting trim, and eager to begin hostilities.

PRESIDENT MCKINLEY REVIEWING THE VOLUNTEERS AT CAMP ALGER, MAY 28. FROM HARPER'S WEEKLY.

AFTER A DRAWING BY G. W. PETERS. Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper & Brothers.

On the twenty-ninth of last month the president of the United States, for the first time in thirty years, inspected the condition and witnessed the manoeuvres of an army prepared to take the field against the onerous of the nation. This notable review took place at Camp Alger, twelve miles from Washington, where 11,000 men of the National Guard of eight states have been sworn into the Federal service and are encamped, awaiting orders to go to the front.

President McKinley is an old soldier, and his long and active experience in

the civil war has taught him the strength and weakness of volunteer armies. The parade, therefore, was no mere formal matter—it meant business. No detail in the appearance of the men and their equipment escaped the trained and watchful eye of the president, and he was constantly pointing out to Secretary Alger, who stood beside him, the visible evidences of the lack of preparation for active campaigning. It must be acknowledged that such defects were extremely noticeable, but the president was as-

ured that the equipment would be thoroughly completed before another week was over.

From a spectacular point of view the parade was completely satisfactory and the march put as illustrated by a picture in Harper's Weekly, was stirring and impressive. The enthusiasm and physical condition of the soldiers, evoked much admiration from the president's party and all the military authorities agreed that the hardy looking men with proper accoutrements and arms would make as fine a body of troops as

could be wished for.

After the review President McKinley made a long tour of inspection around the camp, in order to satisfy himself concerning its condition by careful observation. Every regiment greeted him with hearty cheers, and officers and privates were unanimous in their satisfaction over his visit. Indeed, the entire nation is to be congratulated that its present executive is desirous and fitted to take an active and effective part in preparing the forces of the country for war.

VETERAN EDITOR HAS PASSED AWAY

A. M. THOMSON DIES AT MILWAUKEE.

Was Editor of the Janesville Gazette For Several Years—Interested in Many Publications During a Long and Active Career in the Newspaper Field.

A. M. Thomson, one of the veteran journalists of Wisconsin, and for several years editor of The Janesville Gazette, died at his home in Milwaukee on Thursday after a protracted illness, aged seventy-six years.

Mr. Thomson was born in Pittsburgh, Pa., May 30, 1822, his father removing with his family to Trumbull county, O., when the future editor was 2 years old. He was educated in the common schools and at the Western Reserve Teachers' seminary, a Normal school located at Kirkland, O. He lived in this vicinity until twenty-seven years of age, following the profession of teaching. In 1845 he removed to Wisconsin, settling at Hartford, Washington county, where he engaged in farming.

It was at this time that the fever for building railroads began to rage in the west, and many of the farmers in Mr. Thomson's neighborhood mortgaged their farms to different railroads, with a view to having lines built in their district, the consideration being stuck in the corporations. Great distress followed among the farmers when the holders of mortgages began to foreclose. They formed a state organization to defend their interests, and established a paper known as The Home League, the first issue of which appeared Aug. 11, 1852, with Mr. Thomson as editor. His career as a newspaper man dated as far back as 1850, however, when he purchased a part interest in The Free Democrat, from which he withdrew in 1860. He made a success of The Janesville Gazette, of which he was editor for six years, beginning in 1861. He was sergeant-at-arms in the assembly in 1863 and 1864, and in 1868-'69 he represented the city of Janesville in the assembly, of which he was elected speaker both terms. In 1869 his name was presented to the re-

publican state convention for the nomination for governor by the delegation from Rock county. He purchased The Milwaukee Sentinel in 1870, in company with Daniel Wille, W. G. Robert, and others, who formed a stock company, with Mr. Thomson as president. He was editor-in-chief of The Sentinel from 1870 until 1874. In 1873 he declined the candidacy for lieutenant governor. Severing his connections with The Sentinel, he in 1874 began the publication of The Daily Advertiser, in company with W. G. Cutler. This paper was merged with The Commercial Times, and for a brief period in 1875 Mr. Thomson was one of the proprietors of The Morning News. He was later at different times an editorial writer on The Chicago Tribune and The Chicago Journal.

Mr. Thomson's literary work was not confined to editorial writing, as in 1873 he published a volume of poems that had appeared in The Janesville Gazette and The Milwaukee Sentinel. After being for four years associate editor of The Chicago Evening Journal, he was, in 1891, compelled by ill health, to retire. Active as ever, however, he started a wheat farm in North Dakota, and continued to write—now upon agricultural subjects. He reestablished his residence in Milwaukee in 1892. He was married in 1840, on June 11, to Miss Emeline L. Peck, at Bloomfield, O. She died July 8, 1892, and Mr. Thomson was married again, January 21, 1891, to Miss Annie E. Greenman, of Chicago, who survives him.

Mr. Thomson, while a resident of Janesville, built the first brick tenement house in the city or in Rock county. It still stands at the corner of South Main and Racine streets. He was one of the first men in this state to suggest the name of Matt. Carpenter for United States senator. When Mr. Carpenter was seeking reelection to that office, however, Mr. Thomson opposed him vigorously, and was largely instrumental in accomplishing his defeat.

TO CURE HEADACHE IN 15 MINUTES Take Dr. Davis' Anti-Headache. 25c.

HOGS ARE IN QUARANTINE. Cholera has attacked the swine in the vicinity of Fort Atkinson.

State Veterinarian Clute, who paid a visit to Rock county recently to look into a number of cases of hog cholera among certain herds of cattle, is now having his hands full investigating hog cholera cases north of this city near Fort Atkinson.

Veterinarian Clute has quarantined the herds of several farmers near there and also the stock yards. The quarantine will be the means of preventing the disposing of any hogs for at least six months or until all traces of the hog cholera have left. The stock yards will be disinfected. The hog cholera was introduced by a carload shipment of hogs from the Chicago stock yards, which is a very unusual occurrence.

SCHOOL DAYS ARE AT LAST OVER

FINAL EXERCISES IN THE HIGH SCHOOL COMMENCEMENT

Papers of Much Merit Read By the Graduating Class—The Large Audience Highly Pleased—Presentation of the Class Token—The Alumni Banquet.

The closing exercises of the commencement of the High school filled the opera house last evening to overflowing, and those who were present were amply repaid. The hour was late when "school was dismissed," but none of the parents had noted the passing of the hours.

While the late comers were finding seats and settling themselves in their places the Oriental Quartet and the High school orchestra rendered sweet music. Rev. Mr. Denison asked a blessing upon the exercises and those who participated in them.

Capable and interesting.

Miss Helen D. Menzies was the first of the class to appear. The subject of her essay was "The Majesty of the Law." The subject matter of this paper was admirable not only in its scope but in the manner of its treatment. Her voice was clear and distinct, every word being easily heard in the uttermost part of the auditorium.

Ralph McQuire spoke of "The Barometer." The origin and character of the instrument were detailed briefly, and he illustrated the principle upon which it worked by charts. The paper was instructive as well as entertaining to those present.

"The Mission of America" was the theme of Edith Echlin's oration. She conceived the mission of this country to be to teach men to govern themselves and to inculcate throughout the world the idea that liberty is man's best inheritance.

Leo L. Brown spoke of the "Power of Oratory" and was himself a very good illustration of that power. His manner of delivery was admirable, his language well chosen and the matter of the oration could not well be improved upon.

Ivy M. Downs portrayed "Wisconsin Sonnetry" with a true artist's ideal. She showed her appreciation of the beauties of nature and pictured the scenes of her native state in a manner that awakened enthusiasm (in the breasts of those who listened to her glowing words).

OF MUCH MERIT

Ada H. Crosssett spoke of "The Spirit of Obituary." Obituary was not confined to the days of old. It is found in everyday life in the walks of the humblest of human beings. It did not consist of great deeds, but little courtesies far more frequently bestowed than the truly chivalrous man or woman. The essay was worthy of high praise both as to matter and delivery.

The class poem by Elizabeth G. Keating was an admirable composition. There was a vein of humor and pleasant running through it that created much merriment at times. She was warmly applauded for her effort.

Edward J. Timmons undertook to tell "What Words Say," and succeeded in greatly interesting the audience by illustrations both curious and amusing.

"The Chisel of Destiny," by G. Virginia Hayner, was a conception of the highest order of merit. Her language was excellent, and the ideas advanced were those of one who had studied long and seriously the problems of life.

A Few Last Words.

Harry B. North spoke of "Musical Instruments," and showed much familiarity with their construction and with the principles of harmony. A declamation by Pearl G. Willoy, "The Boat Race," drew forth the loudest plaudits. It was tendered in a highly dramatic manner.

Ethel B. Waagatt spoke of "The Puritan." Her eulogy of the character of this type of American manhood and womanhood was much appreciated.

"Songs of the People" by Carolyn Van Alin was an essay of much merit, and its effectiveness was enhanced by accompaniments of the Oriental quartet, which rendered a number of popular musical selections chosen to illustrate the essayist's thoughts.

The class token was presented by Georgia Withington in a graceful and appropriate manner. The token was a finely engraved portrait of Abraham Lincoln, who was eulogized by Miss Withington in brief but feeling words.

M. Alice Oltchore chose for the valedictory theme "For Us the Race is On." She compared life to a race and pointed out that the members of the class were just beginning a struggle that would result in victory or defeat. She exhorted all her classmates to strive to merit if they did not attain success.

Closing the Books

At the conclusion of Miss Oltchore's paper James Shearer, president of the board of education, presented the diplomas to the forty-four young graduates. The class song was sung, with Miss Withington as director and Edith Hayward as accompanist, and the audience dispersed.

Tonight will close the exercises for they are when the Alumni Association will hold its annual banquet at East Side Odd Fellows' hall on North Main street. The classes will be called promptly at 8 o'clock and the banquet will be served. Immediately under the direction of Osterberg George Shurtliff. The entire program will be poet presented and will include toasts and vocal music. Dancing will follow with music by the Orpheus Mandolin club.

East Cuba is Out.

Santiago de Cuba, via Kingston, Jamaica, June 10.—Communication between the island of Cuba and the outer world was severed yesterday. The Kingston-Santiago cable was cut Monday, and the Marblehead, Yankee and St. Louis cut the Haytian cable, running into Guantanamo bay, yesterday. The ends are buoyed, and Rear Admiral Sampson can establish communication with Washington direct. The Marblehead also engaged and drove a Spanish gunboat into Guantanamo harbor and shelled and reduced the antiquated fortifications. The insurgents co-operated on the land side. The place is being held until troops arrive. It is contemplated to establish a general base here.

ART LEAGUE HOLD ANNUAL EXHIBIT

MOST WORTHY SHOWING MADE THIS AFTERNOON.

Exhibition Not So Large But Is Fully Up to the Standard in Quality—Many Visitors Availed Themselves Of a Rare Treat—Exhibit Pleases All.

The fourth annual exhibition of the Janesville Art League was given this afternoon at the home of Mrs. J. F. Pember, 4 South Cherry street. The exhibit this year, although not as large as has been given in the past, is by far one of the most interesting in that it contains the best of work that the league members could bring together.

FOURTH Great Excellence

The exhibit consists of china painting as well as an endless number of works of art in oil and water colors. Fine lace work as the result of many hours of labor with the needle forms one of the most interesting parts of the exhibit.

Many availed themselves of the hospitality of the League this afternoon, in spite of the threatening weather, and that they were well repaid for their trouble seemed to be the one opinion. Light refreshments were served, and no little credit for the success of the exhibit is due each and every member of the League.

Miss Charlotte Prichard, chairman of the committee, rendered valuable service, being untiring in her efforts to make the affair a success.

Admirable Pictures.

In the hurried visit of the average American to an art gallery there are many of the finest pictures which escape attention, owing to their diminutive size. This is no less true in the case of the exhibit of the Art League, and it takes several visits to see all the beauties of the collection. The larger, more strikingly-colored pictures are seen first, but on a second or third view the attention is attracted and chained by some of the gems among the smaller pictures.

Each and every exhibit deserves the heartiest praise, and hardly a word can be said in criticism of the poorest specimens there.

Among the exhibitors are:

Water colors—Mrs. A. E. Tanberg, Mrs. J. F. Pember, Miss Henrietta Hubbell.

China painting—Miss Mabel Shumway, Mrs. A. E. Rich.

Needle lace work—Miss Mabel Shumway, Miss M. Lyke, Miss Henrietta Hubbell.

Embroidery—Miss Nellie Chittenden.

Oil Painting—Mrs. James Millie, Miss Henrietta Hubbell, Mrs. Fred Bailey.

The exhibit is free to the public and will continue this evening.

WILL SEIZE PORTO RICO.

Decisive Blow to Be Struck at Spain.

WORK FOR GEN. COPPINGER.

Possibility That He Is Now on the Way with 10,000 Soldiers to Take the Island—Gen. Fitzhugh Lee Is Second in Command.

Washington, June 10.—Porto Rico may be under the stars and stripes next week. The American government is moving with the relentless force of fate and will strike the blow as quickly as possible. San Juan's fortifications may be battered down and American troops in quiet possession of the town before the people of this country fully comprehend the government's plan of campaign.

Maj.-Gen. J. J. Coppinger may be on the way even now with a force of 10,000 troops to co-operate with Admiral Sampson in that work. If not on the way he will start in a few days. On gaining possession of San Juan he will probably become military governor, while Gen. Fitzhugh Lee has command of the troops under him.

An individual close to the administration is authority for the theory that Gen. Coppinger left Tampa with the expedition under Maj.-Gen. William R. Shafter. The explanation is offered that the two generals are to divide the force of 27,000 men, 17,000 going under Shafter to operate against Santiago, while 10,000 are to proceed with Coppinger to effect the conquest of Porto Rico.

It is said Admiral Sampson is to meet the expedition off the east end of Cuba and accompany Coppinger's command with a part of the squadron now in front of Santiago. Commodore Schley under this arrangement would remain in command of that portion of the fleet supporting Shafter.

The source of this statement entitled it to consideration, but it conflicts with the opinion of men who hitherto have been good guides as to the policy of the war managers. They believe, however, that the expedition against Porto Rico will start within a few days.

Tramps Capture a Train.

Newton, Kan., June 10.—Two hundred men who claim they are neither tramps nor bums went through here Thursday in absolute charge of a Santa Fe train. They captured the train east of here, and while they did not attempt to run or man it, they directed its movements. The men insisted they were anxiously seeking work in western Kansas harvest fields. They declared they were in such a condition that they had to have work, and the only recourse was to capture the train. They took it some distance east of here. The men say they are from Illinois, Indiana, Ohio and Pennsylvania, and were attracted here by reports in the east that there is great scarcity of harvest labor in Kansas.

Report of Michigan Crops.

Lansing, Mich., June 10.—Secretary of State Gardner reports that Michigan wheat is in better condition than for ten years, the average for the state being 98. This is 20 per cent better than one year ago. The average condition of corn, oats, barley, meadow and pastures is 96 and of clover 95. Apples promise 95 and peaches 80 per cent of average crops. A number of correspondents report leaf curl, but no serious damage is apprehended.

Close of Augustana Synod.

Galesburg, Ill., June 10.—The sessions of the Augustana synod closed here Thursday. A change in the order of service in the mother church in Sweden has caused a change here also. The church book, containing the liturgy for morning and evening service and forms for ministerial act, was revised so as to conform with the handbook in Sweden, as adopted and introduced in the synod in 1895.

Settling the Niger Trouble.

Paris, June 10.—It is understood that the Paris-West Africa boundary commission has adjusted the differences between Great Britain and France in regard to the line of demarcation of the Niger territories. The minor questions as to the regulations to be observed in the Niger territories have not yet been settled.

Thinks Havana Will Be Razed.

Washington, June 10.—"From what I could learn at the navy department this morning," said Representative Henry of Mississippi, "I take it that if Cuba does not fall within the next ten days Havana will be razed to the ground. The war has progressed far enough to obtain tangible results and news of a big fight may come any moment."

ation, held in the Baptist church here, was a well attended and profitable meeting. Delegations were present from the Janesville and Beloit societies and the program was presented in full. In the absence of President Parsons of Clinton, the vice president, Mrs. B. B. Collier, of Beloit, presided. Rev. W. A. Spinnery, of Beloit, offered prayer; Rev. O. P. Boston, of Evansville, responded to the topic, "Our Obligations," and his remarks were reinforced by short talks from representatives of the Janesville and Beloit societies. Rev. A. O. Dawson, pastor of the Congregational church at Janesville, in the presence of a small company of relatives and friends. Miss Hazel Holmes acted as flower girl and dispensed floral favors to the guests in a most charming manner. A dainty and sumptuous repast was served by Caterer G. A. Shortliff. The young couple were the recipients of many beautiful gifts. They left for a short wedding trip at 9:25 p. m. and will make their home at Kankakee.

Milwaukee Carnival Week.

Carnival week at Milwaukee, June 27 to July 3, will rival the Mardi Gras at New Orleans. Those having the celebration in charge believe that the Wisconsin festivities will even be more attractive than those of the far famed southern city. At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. The grand pageant, illustrating the history of Wisconsin, will consist of twenty floats. These floats are rapidly nearing completion and are said by the contractor, who has devoted his whole life to this business, to be the finest he has ever yet constructed. Low fares on all roads and boats will be given for Carnival week.
